Year-Round Bridge Housing  
with Essential Services

# Homeless Service Center Site

OVER 4 ACRES  
OF LAND TO BUILD  
THE CENTRALIZED  
SERVICE CENTER

1400 E Mission

# During Demolition

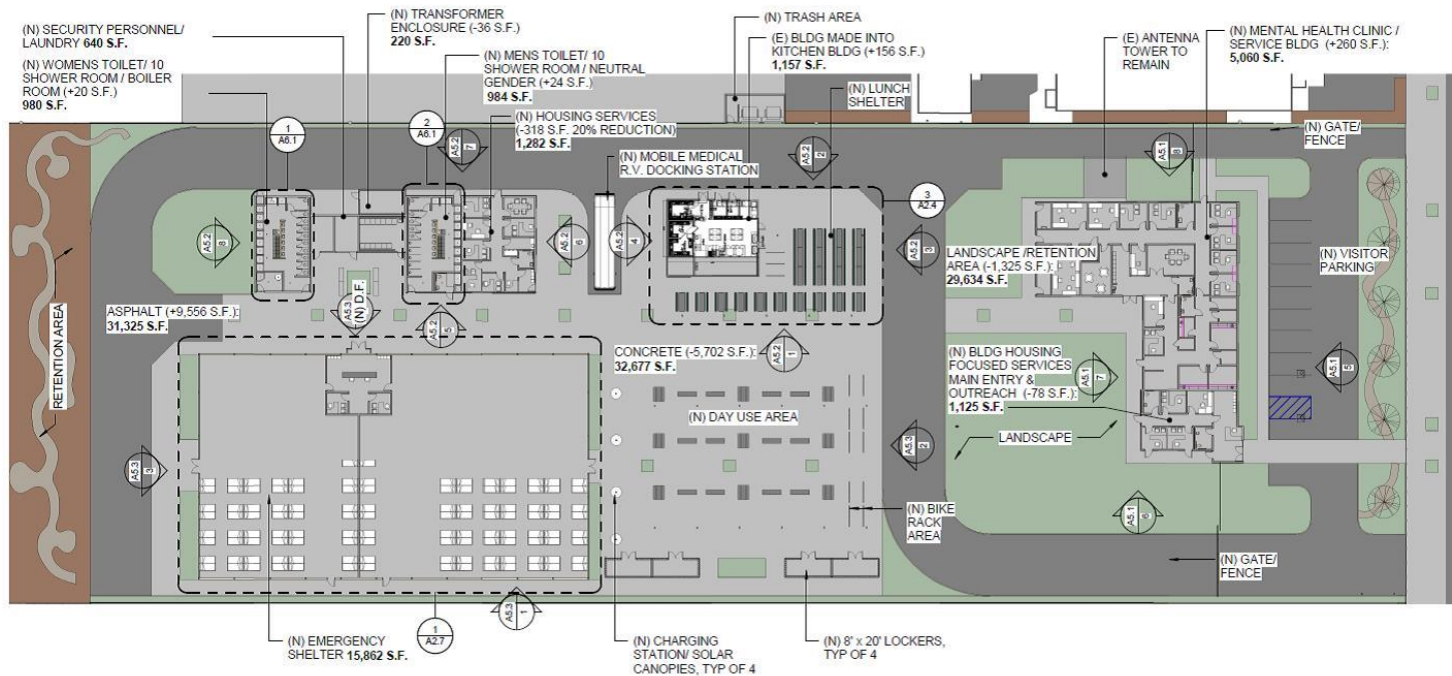

# Demolition Phase

- o Demolished 5 buildings (Each building contained both lead and asbestos)
- o Removed all asphalt
- o Underground surprises during demolition
  - 2 Septic Tanks
  - 400 linear feet Transite Pipe made of asbestos
  - 3,600 sqft Concrete Slab under asphalt
  - Concrete Tank under garage still had oil in it
  - Tree with roots around an electrical line
  - Majority of activity required environmental oversight of AQMD.

# Time Frame

- Due to delays in the demolition phase and Plan Check process, the current timeline for Phase 1 completion is late August, early September.
- Phase 2 – The City submitted a funding request to LAHSA in March. If funded, Phase 2 would begin in Summer.
- Site Partners have been meeting regularly to develop policy, procedures and protocols for the new site to be ready to open.
