## CITY OVERVIEW

The City of Pomona derived its name as the result of a community-wide contest held in 1875 to select a name for the City. Solomon Gates submitted the

winning Pomona, name, Roman Goddess of Fruit. Reverend Charles F. Loop had a 5½ foot statue of the goddess made in Italy at a cost of \$9,800 and donated it to Pomona. In 1889, John C. Fremont, a famous U.S. soldier and explorer, unveiled the statue of the goddess amid great fanfare. Over the years, Pomona has nobly represented meaning of its name. The Pomona Valley has been a fruitful valley in the past and is now fruitful from the strength and efforts of its Pomona has been a people.

source of strength and inspiration to the surrounding communities for many years. As the Goddess appears to be looking to the future, we are reminded of the past — our successes and challenges, the present — a review of our talents and opportunities, and the future — the hopes and dreams of the citizens of this City. Many have passed this way and have given much. We would not have expected less. As those who have come before us gave so much, we pledge to give no less than our forefathers expected when they saw the vision of Pomona's destiny. We are Pomona...Vibrant, Safe, and Beautiful.

## OVERNMENT

## **B**UDGET PROCESS

Pomona operates on an annual budget cycle. The oneyear operating budget is adopted each June and becomes effective July 1st. The City Council annually reviews and revises the Five-Year Capital Improvement Program. This approach to financial planning gives the City Council the opportunity to set policy and provide direction for operational and capital budgets in an efficient and productive manner.

Sections 1002 through 1011 of the Pomona City Charter sets forth the legal requirements for the preparation and adoption of the City Budget and Capital Improvement Program. The Charter requires that the City Manager submit to the City Council a proposed budget at least 45 days prior to the beginning of the fiscal year. It further requires that the Council set a time for a public hearing and that a notice of such hearing be published in a local newspaper no less than two weeks prior to the hearing date. In the event the budget is not adopted prior to the first day

of the fiscal year (July 1), the amounts appropriated for current operations for the prior fiscal year will be deemed adopted for the current fiscal year on a month-to-month basis until such time as the new budget is adopted.

The City Manager is also required to submit to the City Council the Five-Year Capital Improvement Program at the same time or prior to submission of the Operating Budget.

Pomona uses a combined program and line-item budget format. This is designed to provide for a comprehensive management control and fiscal planning system and is aimed at achieving goals and objectives at operational levels which are consistent with the needs and wants of the community. The budget process is generally an incremental one, which starts with a historical base budget. Requests for more or fewer appropriations are made at the departmental level. Throughout the entire budget process, staff continues to remain cognizant of public safety and legal requirements, as well as, providing the most efficient and economical service levels possible.

<u>Budget Calendar:</u> Altogether, budget preparation takes approximately nine months. Work typically begins in December (in the year prior to the first fiscal year of the budget) when staff prepares the Budget Guide and culminates in August with the publication of the Adopted Budget. The following schedule outlines the major steps and dates involved in preparing and processing the annual budget and covers one complete budget cycle:

December – The Budget Guide and related materials are distributed and reviewed in a training session. Salary allocation distribution percentages are due to Finance by month end.

January – Preliminary revenue estimates are projected and departments submit preliminary expenditure budget requests to the Finance Department.

February through April – Budget requests are analyzed by the Finance Department and preliminary revenue estimates are reviewed and adjusted as appropriate. A Mid-Year

Review of the Current Budget and Preliminary Preview of the Proposed Budget is presented to the Community and participation from the Community is encouraged. The City Manager and Finance staff meet with individual Department Directors to review their budget estimates and requests. Revenues are compared with expenditures to determine the budget planning direction. The Executive Team is then briefed on the Proposed Budget and balancing efforts are developed as necessary The Five-Year Capital Improvement Program Budget is also prepared during this same period.

May – The Proposed Budget is printed and distributed. A City Council Study Session(s) is held and the City Council makes final recommendations to the City Manager. Revisions are made to the final budget document per City Council direction.

June – The Public Hearing notice for the Proposed Budget is published and the final Proposed Budget documents are prepared and submitted to the City Council. The public hearing of the budget is conducted and the budget is adopted. Additionally, the required GANN calculation is prepared and submitted to the City Council for adoption.

August – The final Adopted Budget is published and distributed.

Amending the Adopted Budget: Once the Budget is adopted by the City Council, the responsibility of implementing each departmental budget lies with each department director with ultimate responsibility resting with the City Manager. Department Directors are expected to operate their departments within the appropriations established in the Budget. Budget transfers or budget amendments should be the exception rather than the rule. In certain cases, however, requests are considered where unforeseen events have occurred. In such cases, the Department Director and Finance Director may approve transfers within the same division and expenditure category. Transfers moving funds from one division or department to another or one category to another

requires the approval of the Department Director, Finance Director, and City Manager. To amend or supplement the Budget by the transfer of all or any part of unused and unencumbered balances appropriated for one purpose to another purpose, to appropriate available funds not included in the budget, or to cancel in whole or in part any appropriation not expended or encumbered, requires an affirmative vote of the City Council.

Amending the Capital Improvement Program Budget requires City Council action, which is usually sought at time of bid award for the new or revised capital project.

**Budget Documents** – The Adopted Budget sets forth approved programs, operations, and the estimated revenues to support these efforts for the fiscal year. Three documents serve as the key for planning the type and level of service the City provides its residents and businesses:

- The Budget Guide is an internal document that provides the basic instructions and assistance necessary for each department to prepare its budget submissions.
- The Policy Budget and Summary document contains summary tables and graphs, descriptive narratives, and reports on each department and fund. The document is organized into several sections. The first five sections serve as both an introduction and overview of the budget.

## **INTRODUCTORY SECTION**

The City Manager's **BUDGET MESSAGE** summarizes revenues, expenditures, and sets forth the major projections and budgetary issues for the upcoming fiscal year.

The reader will find a wide variety of general information including a City overview, fund descriptions, the budget structure, definition of revenue sources, and an explanation of the budget process, among other information in the **USER GUIDE** section.

The **FINANCIAL SUMMARIES** section provides various charts and graphs including projected

available balances, revenue and appropriation summaries, and planned transfers in and out.

The **REVENUES** section contains information on major General Fund revenue sources along with a line-item detail of historical and estimated revenues for all funds.

The **AUTHORIZED STAFFING** section includes a comprehensive listing of full-time personnel with historical staffing trends.

A summary of the **CAPITAL IMPROVEMENT PROGRAM B**udget is included within this section.

The **FUNDS/DEPARTMENTAL BUDGET SECTION** gives details on all departments within the City. This section is divided by Fund or Fund type and includes Special Revenue Funds, Debt Service, Capital Projects, Enterprise Funds, and Internal Service Funds.

3. The Five-Year Capital Improvement Program (CIP) provides a detailed description of the project detail, cost, status, and funding source for capital/construction improvement projects scheduled to take place over the next five years. CIP budget preparation deadlines and publication dates parallel those prescribed dates for the operating budget.

## RASIS OF ACCOUNTING & BUDGETING

The City of Pomona's accounting records are maintained in full accordance with Generally Principles (GAAP), Accepted Accounting by the Government Accounting established Standards Board (GASB). The basis for budgeting is also in accordance with GAAP virtually without exception. Since the implementation of GASB 34, governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Principal and interest on long-term debt are recorded as fund liabilities when due or when amounts have been accumulated in the debt service fund for payments to be made early in the following year.

A carefully designed system of internal accounting and budgetary controls is used to ensure that revenues and expenditures/expenses are tracked and used as intended. These controls are designed to provide reasonable, but not necessarily absolute, assurance with respect to the reliability of financial and budgetary records for use in the preparation of financial statements, as well as accountability for all City of Pomona assets. The concept of reasonable assurance recognizes the cost of control should not exceed the benefits, and the evaluation of costs and benefits likely to be derived requires estimates and judgments by management.

## RUDGET STRUCTURE & FUNDS

The City's accounts are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures. Government resources are allocated to and accounted for in individual funds based upon the purposes for which it is to be spent and the means by which spending activities are controlled. The various funds are grouped into generic fund types and broad fund categories:

<u>General Fund</u> is the general operating fund of the City. It is used to account for all the general revenue of the City not specifically levied or collected for other City funds and for expenditures related to the rendering of general services by the City. This is the largest operating fund in the City.

<u>Special Revenue Funds</u> are used to account for revenues derived from specific sources, which are required by law or administrative regulation to be accounted for in separate funds.

<u>Debt Service Funds</u> are used to account for the accumulation of resources for, and the payment of, the City's general long-term debt obligations, including principal, interest, and related expenses.

<u>Capital Projects Funds</u> are used to account for financial resources used for the acquisition or construction of major capital facilities, which are not financed by proprietary (enterprise) funds.

<u>Enterprise Funds</u> are used to account for City operations financed and operated in a manner similar to private business enterprises. The costs of providing these services to the general public on a continuing basis are financed or recovered primarily through user charges. The City of Pomona has three Enterprise Funds – Water, Sewer, and Refuse.

Internal Service Funds are used to account for financing of goods and services provided by one department to other departments within the City on a cost reimbursement basis. The City of Pomona has four Internal Service Funds — Equipment Maintenance, Self-Insurance, Information Technology, and Printing/Mail Services.

Housing Authority Funds are used to account for Low/Mod Housing assets, Section 8 and Continuum of Care. Disbursements from these funds are made in accordance with fiscal agreements or the applicable legislative requirements for each fund.

The <u>General Fixed Assets Account Group</u> is used to account for and control all City general fixed assets, other than those in the proprietary funds. An item qualifies as a general fixed asset if it has a useful life greater than one year and a value in excess of \$5,000.

The <u>General Long Term Debt Account Group</u> is used to account for the City's outstanding long-term liabilities that are expected to be paid from future revenues of the governmental funds.

These fees, which are presently \$4.00 per vehicle registration (in those areas which come under the jurisdiction of the SCAQMD), are subvened to the District net of administrative costs borne by the DMV, which may not exceed more than 1% of total fees collected. The City of Pomona adopted Ordinance Number 3600 on June 3, 1991 to support the SCAQMD's imposition of the fee which was required in order to receive the revenue for City programs.

The City of Pomona annually receives funds generated by the Department of Motor Vehicles' registration fee, which may be used to assist local government on qualifying projects designed to help reduce motor vehicle emissions. The City presently receives \$0.40 of each \$4.00 collected by the DMV -- to total approximately \$1.60 per vehicle registration -- which is subsequently distributed to Pomona in a prorated share, based upon current population data.

## Fund 249 – Housing Authority Administration

This fund was established in June 2008 to account for activity related to the operation of the Housing Authority.

## <u>Fund 253 – South Garey Maintenance District</u> (Zones D, E & F)

Landscaped Area Maintenance Program is maintained by an outside landscape contractor and administered by Public Works. The primary responsibility of the contractor is to maintain all landscaping in the medians and parkways along South Garey Avenue, Rio Rancho Road, Auto Center Drive, and Lexington Boulevard.

The program involves two different levels of maintenance activity. Turf maintenance includes watering and fertilizing, mowing and edging, aerifying, verticutting, controlling weeds and disease, and repairing vandalism damage to all turf. Slope, shrub, and ground cover maintenance includes hand weeding, fertilizing and watering, pruning, controlling insects and disease, removing and replacing plant material as needed, and repairing vandalism damage to trees, shrubs, and ground cover.

## Fund 257 - CalHome Reuse

The CalHome Program Reuse is funded from proceeds/pay-offs from projects funded out of the City's CalHome Grant. The State Department of Housing Community and Development (HCD) requires a separate reuse account be established by

the grant's recipients. The funds are similarly used to provide deferred loans of up to \$25,000 to low or very low-income owner-occupants of mobile home units within Pomona.

## Fund 260 – Asset Forfeiture

Asset seizure proceeds represent cash, assets or other items of market value that are alleged to have been used in the commission of and/or derived from the proceeds of illicit drug trafficking activity. Assets seized in this manner by law enforcement agencies must be processed through State or Federal asset seizure authorities before actual forfeiture of ownership to the requesting agency can be made. For investigations involving multiple agencies, the State or Federal asset seizure authority determines the amount of distribution or entitlement for each participating agency. Depending upon which processing authority is involved, the time frame for processing of such claims can range between 6 - 18 months. As intended by enabling legislation, the proceeds from illegal narcotics' asset seizures are to be exclusively devoted to the enhancement of law enforcement capabilities. In addition to this requirement, the controlling statute specifically prohibits supplanting of funds as a safeguard to ensure that asset seizure funds are not comingled with general funds.

## <u>Fund 263 – Domestic Prep/Homeland Security</u> <u>Grant</u>

Funds from this grant source consist of federal pass through monies awarded to the State of California for distribution to county and city governments in order to assist with local Domestic Preparedness and Homeland Security efforts and concerns.

## Fund 264 - CalHome

The CalHome Program is funded with Proposition IC, the Housing and Emergency Shelter Trust Funds Act 2006, which is designed to provide homeownership and rehabilitation assistance for low or very-low income families. The City's CalHome Mobile Home Rehabilitation Program provides deferred loans of up to \$25,000 for repairs and improvements to owner-occupied mobile home units throughout eligible parks in Pomona. Homeowner's income limit may not exceed 80% of the area median income as established by the

California Department of Housing and Community Development.

Long-term or large dollar value grants receive individual fund numbers within the 200 series of fund numbers. As 200 series numbers are exhausted, numbers within the 100 series may be used.

## <u>Fund 281 – Supplemental Law Enforcement Services</u> Fund

Assembly Bill 3229, which took effect with the passage of the State's fiscal year 1996-97 Budget, established the Citizens' Option for Public Safety (COPS) program. Pursuant to the COPS program, a Supplemental Law Enforcement Services Fund (SLESF) of \$100 million has been established for "front line" law enforcement, and for district attorneys' and local sheriff's offices to assist in the prosecution and incarceration of local offenders. Based on population figures furnished by the California Department of Finance, specific allocation amounts for SLESF have been established for all eligible agencies in the State. The COPS program is not a competitive grant program and, therefore, the City of Pomona is automatically entitled to receive SLESF monies subject to adherence to established COPS program compliance criteria.

Administered through the counties, the COPS program provides that local police departments must submit an annual fiscal year expenditure plan to the County's SLESF oversight committee outlining how the agency intends to spend its SLESF allocation.

## Fund 291 - Pomona OATH Initiative

The Pomona OATH (Officers Assisting the Homeless) Initiative funds were awarded to the City by the State of California in an effort to address homelessness. Funding for this initiative is on a one-time basis and is to be utilized in full by July 1, 2021 (three years).

## A NNUAL AUDIT OF FINANCIAL RECORDS

All cities are required to retain the services of an independent Certified Public Accounting (CPA) firm to conduct an annual audit of the year's financial transactions. The City's auditors are selected on a competitive basis through a formal, public Request for Proposal (RFP) process every three years as set forth in Section 1016 of the City Charter. The resulting report is a Comprehensive Annual Financial Report (CAFR) that includes an introductory section, the independent auditor's report, Management's Discussion and Analysis (MD&A's), government-wide financial statements, fund financial statements, notes to the financial statements, and a statistical section. The reports are prepared in conformity with Generally Accepted Accounting Principles (GAAP) for governments and are usually available in late January.

The City of Pomona has been awarded the Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association of the United States and Canada for the last twenty-eight consecutive years (1993-2020).

## **EBT ADMINISTRATION**

Debt management is an important component of a city's financial management practices. Cities use the option of debt financing to fund large projects at a time when paying for these projects out of current revenues would be impractical. On May 2, 2011, the City Council adopted a Fiscal Sustainability Policy, Resolution #2011-49, which also sets forth a debt policy. As part of the City's on-going debt management program, the City periodically reviews all outstanding debt to evaluate the cost/benefit of

restructuring or retiring any outstanding debt. All debt service payments are budgeted and are anticipated to be covered by current revenues each year. Additionally, the City is well below its annual debt limit as calculated below.

Under the City Charter, **General Obligation Debt** pledging City general revenues require voter approval by two-thirds majority. With this difficult electoral requirement, such debt obligations are rarely issued. Any attempted effort to issue general obligation debt would have to be for projects of special significance and of community-wide benefit. Debt limit for any general obligation debt is 15% of the City's assessed valuation. The City has not issued any general obligation bonds.

<u>Capital Leasing</u> can be used to acquire tangible assets where there is a pledge to pay the debt from current annual receipts and where the acquired assets can be placed under a lien until the debt obligation is paid off. The City of Pomona has used capital leasing to acquire equipment and currently has outstanding issues.

<u>Special Revenue Debt</u> can be used to finance capital projects where there is a pledge to pay the debt from a stream of revenue accruing to the City. This form of debt is used to finance facilities and improvements from Enterprise Fund activities, which generate ongoing revenues. The City of Pomona has used this type of debt for its water and sanitation enterprises.

<u>Special Assessment Districts</u> can be used to finance infrastructure for a limited area of the City. With this kind of debt, special assessments or special taxes are levied against the property owners in a defined district who directly benefit from the infrastructure improvement. The City of Pomona has used this type of debt to finance infrastructure for new development in the City.

Under prior redevelopment law, <u>Tax Increment Financing</u> could be used for redevelopment activities. Property tax receipts from a defined redevelopment project area (above a base level set when the area is created) are restricted to the payment of debt. This incremental revenue can then be pledged for redevelopment debt. Repayment of the debt is the sole obligation of the Redevelopment Agency. The City of Pomona, through its Community Redevelopment Agency, has used this mechanism numerous times. However, with the dissolution of Redevelopment Agencies in California, this type of financing is limited to refinancing of existing debt to lower debt service which cannot extend repayment terms.

The City of Pomona has also issued **Short-Term Debt**, such as Tax Revenue Anticipation Notes, or TRANs. Such borrowing is used to supplement the cash balances in the General Fund during the low points between the peaks when property tax receipts are received. Because of the "spread" on interest rates between taxable and non-taxable debt, the City can earn net income on such short-term borrowing.

## **Debt Service**

A major portion of the long-term obligations listed herein is debt which is directly or indirectly related to activities of the Pomona Redevelopment Agency. This debt is serviced primarily from tax increment revenues. Another portion of the City's debt includes Water and Sewer Enterprise debt which is funded through user rates. All principal and interest payments due during the current fiscal year have been budgeted in the appropriate funds.

## EBT OBLIGATIONS

The following section summarizes the debt service obligations of the City as of July 1, 2021. These obligations represent the City's annual installment payments of principal and interest for previous capital improvement plan projects, acquisitions funded through debt financings, and redevelopment activity.

## POLICY GUIDELINES

The Program and Financial Plan (Budget) for the City of Pomona is based upon certain financial policies and priorities as set forth formally or informally. These financial guidelines and policies lay out the framework for not only the development of the budget, but the ongoing operations of the City as a whole. It is important to continue developing these

policies as they are the financial foundation that supports the services to the community. More formal financial and fiscal sustainability policies are currently under review.

### GUIDELINES

#### **Operating Budget Guidelines**

The City's annual budget is a plan of operation, complete with revenue estimates to ensure ability to finance that plan. The budget determines the quality and quantity of governmental services and the method of distributing costs to various segments of the community through collection of taxes and fees.

A budget should be regarded as a tool to aid management in operating an organization more effectively. The budget is the department's proposed spending plan, and the primary responsibility for its development and accuracy rests at the department level.

Presentation of the budget provides the City Manager the opportunity to explain existing and proposed programs to the City Council and to focus attention on services and programs that may require City Council direction, legislative action and/or support for the City Council's creation, continuance, or problem resolution.

Adoption of the budget is one of the City Council's most important policy decisions and provides the legal basis for the expenditure of funds to accomplish those policies.

If a non-sworn position has been vacant for more than 2 years, the position will be eliminated unless specifically requested to retain and approved by the City Manager. To retain these types of positions, a Personnel Related Budget Request form, including a justification for retaining a position that has not been utilized in 2+ years, must be submitted.

## **Revenue Guidelines**

Historical trends are the basis for developing virtually all forward-looking City revenue estimates. A number of key line-items are tracked, comparing the current pace of revenues received with prior years, adjusting for anomalies.

Changes in both national and local economics are factored in on top of the trends discussed above, such as forecasts for a slowing or rising real estate market which could have an eventual effect on related revenues, i.e. Documentary (Property) Transfer Tax.

Known or strongly anticipated external events are also considered, as new major local businesses (or closures of existing ones) will impact Sales Tax receipts, while rate changes and market factors can have a significant impact upon the amount of Utility Users' Tax collected, just to name two examples.

Forecasts from other governmental entities are actively sought and overlaid upon our local models. Unfortunately, these forecasts – which encompass such variables as County estimates of Property Tax growth – are often not available within the required time frame for budget development, but are a valuable tool when received in a timely manner.

Legislative changes – especially in recent years – can have a very substantial impact on revenue estimates. The "triple flip" of nearly 25% of Sales Tax monies and the shift of most VLF receipts to Property Taxes are both good examples of the need to stay abreast of coming changes.

This report is submitted annually to the Government Finance Officers Association of the United States and Canada for their Excellence in Financial Reporting Awards Program. (The City has received this award for numerous consecutive years.)

The City will maintain a strong internal audit capability.

The City will develop a five-year plan for capital improvements to be updated annually. Future capital expenditures will be projected annually for a five-year period based on changes in the community population, real estate development, or replacement of the infrastructure.

The City will coordinate preparation of the Capital Improvement Program Budget with preparation of the Operating Budget. Future operating costs associated with new capital improvements will be projected and included in Operating Budget forecasts.

The City will identify the estimated costs and potential funding sources for each proposed capital project before it is submitted to Council for approval.

## **Fiscal Sustainability Policy**

On May 2, 2011 the City Council Adopted Resolution No. 2011-49 approving the Fiscal Sustainability Policy.

Components of the Policy include: Budget; Economic Development; Risk Management; Accounting, Auditing and Financial Reporting; Cash Management; and Debt Management.

## **A** LLOCATED COSTS

The Annual Budget includes allocated costs in a number of line-items which are common to most of the City's departments. These line-items include Information Systems, Workers' Compensation, Unemployment, Liability Administrative functions, and the maintenance and operation of the City's Fleet. In addition, costs are recovered for City Telephone Service, Administrative Support, and Mailing and Printing Services. These costs, which include both the actual service expense(s) as well as related personnel expenditures, are recovered from those departments making use of the respective service in proportion to the extent the provided services are actually used as described below.

#### INFORMATION SYSTEMS

Each Department is allocated a portion of the costs to support the services provided by the Information Technology Department. These costs are allocated using a formula that is based on each department's technology inventory and Full-Time Equivalent (FTE) positions. Each department's inventory is verified and then assigned a percentage based on the total amount of information system technology items factored into the total inventory citywide. Once that figure is established, the amount is further allocated

based on the number of FTE, including hourly positions allocated to various funds. Using these percentages, departments are allocated a set cost each fiscal year to support the services that are provided by the Information Technology Department. Also taken into consideration and applied to the respective department allocation are department specific software contracts and other technology services outside the standard level of service such as the City's Geographic Information System (GIS).

## • SELF-INSURANCE

Three self-insurance internal service funds (liability, workers' compensation, and unemployment insurance) are utilized to account and pay for annual claim expenses. Actual claims are paid for and tracked within these three self-insurance internal service funds.

<u>Liability (F672)</u> – Actual expenses are tracked by department/division within F672. These expenses are then charged back to departments/divisions based on a three-year rolling average.

Workers' Compensation (F671) – Beginning in 2014-15, Workers' Compensation costs are allocated through the benefitted position allocation process just as if the City were not self-insured. Claims expense is tracked by department through F671 in order to make necessary adjustments to future rates. Additionally, for those operations with excessive workers' compensation claims (based on actual expense), an "excess workers' compensation" charge may be assessed.

<u>Unemployment (F673)</u> – Based on current expenses, an annual amount is estimated for the coming year's budget which is then allocated on a 'cost per employee' basis to funds/departments as part of the benefitted position cost allocation.

In addition to the direct claims expense, the Risk Management administrative operating costs, special insurance and insurance premiums, are factored into a separate allocation entitled: Liability Admin Allocation, Workers' Comp Admin Allocation, and Unemployment Admin Allocation within the allocated costs and self-insurance category. These costs are allocated to each operating department

based on their division's total Full-Time Equivalent (FTE), including hourly positions, versus the City's overall FTE. The percentage determined using this formula is then applied to the overall amount estimated for these annual services.

#### EQUIPMENT MAINTENANCE/FLEET

All departments that utilize City vehicles are allocated costs for the maintenance of the vehicles. The methodology used to estimate the fiscal year expenses is based on several factors including; the number of labor hours spent working on the department specific vehicles in the prior year, replacement parts, sublet costs, and fuel. These components are combined to create a vehicle charge and then consolidated by division or department to get a division/departmental charge. Once this has been established, division/departmental a percentage of the total fleet operations expense is calculated. This percentage of the fleet is then multiplied by the estimated cost of the coming year's operations to determine the fleet allocation. The charges are assessed on a monthly basis and appear as revenue in the Equipment Maintenance internal service fund.

#### COST OVERHEAD ALLOCATION

Administrative, Support and Legislative Departments receive a cost overhead allocation for the services provided to other funds. This Cost Overhead Allocation funds services such as City Council oversight, City Administration, City Clerk and Legal functions, as well as support functions such as Human Resources, Finance, and **Facilities** These support services include Maintenance. operations related to hiring and monitoring personnel, processing accounts payable and payroll checks, purchasing, accounting, cashiering, benefit administration, and technology. The total amount allocated to other funds is allocated back to the legislative and support services for the cost of each service.

## PRINTING AND MAILING SERVICES

Printing and Mailing Services are recovered from departments that use these services. Departments are responsible for estimating the amount needed for postage and printing/copying costs that will be incurred during the fiscal year. Printing costs are based on use of the City's common-use printers and

cost of services by outside vendors. The cost of copies on the two main copiers includes an overhead factor to recoup operational expenses such as paper, toner, and machine maintenance. Postage is charged to departments based on the actual expense of postage. Operational expenses for these services, such as equipment maintenance, and supplies, are allocated based on a percentage of actual costs.

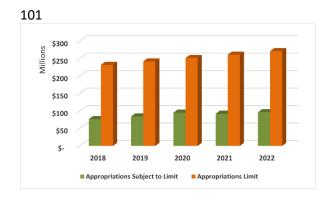

## ANN LIMITATION

In November 1979, the voters of the State of California approved Proposition 4, commonly known as the Gann Initiative. The Proposition created Article XIIIB of the State Constitution placing limits on the amount of revenue which can be spent by all entities of government from the "proceeds of taxes." Proposition 4 became effective for the 1980-81 fiscal year, but the formula for calculating the limits was based on the 1978-79 "base year" revenues.

In 1980, the State Legislature added Section 9710 to the Government Code providing that the governing body of each local jurisdiction must establish, by resolution, an appropriations limit for the following year. The appropriation limit for any fiscal year is equal to the previous year's limit adjusted for population changes and changes in the US Consumer Price Index (or California per capita personal income, if smaller). The necessary statistical information is provided by the California Department of Finance.

The original Article XIIIB (Proposition 4) and its implementing legislation were modified by Proposition 111 and SB 88 by the voters in June 1980. Beginning with the 1990-91 Appropriations Limit, a city may choose annual adjustment factors. The adjustment factors include the growth in the California Per Capita Income, or the growth in the non-residential assessed valuation due to construction within the City and the population growth within the county or the city.

The Appropriations Limit for fiscal year 2021-22 is \$260,825,038, and the appropriations subject to limitations are \$96,411,190; therefore, the City of Pomona is \$174,560,719 below its Appropriations Limit. The following chart displays 5 years of GANN data.
