## **PUBLIC WORKS**

### **WORKING TOGETHER TO IMPROVE AIR QUALITY**

One of the City’s goals is to reduce waste and provide essential service. In an effort to reduce food waste, the City will provide an organic waste collection service to residential customers in 2022. The new organic collection service is a result of SB 1383, a State mandate in an effort to improve air quality. This also supports the City’s effort in moving toward zero waste. Residential customers will receive an insert along with their utility bill in English and Spanish.

Bill insert is as follows:

#### **Working Together To Improve Air Quality**

RECYCLE FOOD WASTE – California passed a law, Senate Bill 1383, to improve air quality by reducing greenhouse gas emissions from organic waste disposal, such as food and landscape waste. Organic waste in our landfills decomposes and generates methane gas, a climate super pollutant 84 times more potent than carbon dioxide. *Landfills are the third largest producer of methane.* This methane emission from organic waste releases into the atmosphere, affects air quality, and contributes to global warming. To comply with this state mandate, the City of Pomona is required to begin a Food Waste Recycling Program for residential customers that will start in 2022. More information will be available once the development of a Food Waste Recycling Program is completed. For more information, please visit: [www.calrecycle.ca.gov/organics/slcp](http://www.calrecycle.ca.gov/organics/slcp).

## Trabajando Juntos Para Mejorar La Calidad Del Aire

RECICLAR DESECHOS DE COMIDA – California aprobó una ley, Bill SB1383, para mejorar la calidad del aire con reduciendo las emisiones de gases. Desperdicios orgánicos en los vertederos producen gases metano, un contaminante del clima 84 veces más fuerte que dióxido de carbono. *Vertederos son los tercer más grande productores de metano.* Estas emisiones metano de desperdicios orgánicos llena la atmósfera, y afecta la calidad del aire, y contribuye al calentamiento global. Para cumplir con las regulaciones del estado, se requiere que la ciudad de Pomona desarrolle un programa para reciclar desechos de comida comenzando en 2022. Más información será disponible a un se complete el programa para reciclar desechos de comida. Para más información visite: [www.calrecycle.ca.gov/organics/slcp](http://www.calrecycle.ca.gov/organics/slcp).
