### **REQUEST FOR PUBLIC INPUT – LOCAL ROADWAY SAFETY PLAN**

The City's Engineering Staff is working with a transportation consultant (KOA Corporation) to develop a Local Roadway Safety Plan (LRSP). A LRSP provides the framework for identifying, analyzing, and prioritizing roadway safety improvements on local roads. The LRSP development process and content are tailored to local issues and needs. The process results in a prioritized list of issues, risks, actions, and improvements that can be used to reduce fatalities and serious injuries on local roads (FHWA, n.d.). This Citywide plan will address data driven problems with recommended improvements that will potentially be programmed in future capital improvement projects. We are seeking your input to enhance roadway safety.

Your participation and comments are valuable to us!

**The comment period will begin April 25, 2022 until May 31, 2022.**

Please visit the English website: <https://arcg.is/o9oeDo> or Spanish website: <https://arcg.is/aWozX> to provide your comments.

### **REMINDER TO FOLLOW BIKE LANES RULES AND REGULATIONS**

According to the Department of Motor Vehicles (DMV), each year in California, over 100 bicyclists are killed, and over 10,000 are injured in collisions on our roads. With the recent opening of the protected bikeway on Valley Blvd. and bike lane facilities on nearby streets, here are some guidelines (provided by DMV and Pomona Police Department) to follow when riding a bike in traffic or driving in areas where bicyclists are present:

## For Bicyclists

- **At night, use lights and reflectors** (at minimum, a front white light with a visible distance of 300 ft. and a rear red reflector with a visible distance of 500 ft.)
- **Always wear a properly secured helmet.** Helmets lower the risk of a serious head injury in the event of a collision.
- **Bicyclists must travel in the same direction as traffic.**
- **Yield to pedestrians, just as a driver would.** Within designated crosswalks or unmarked crosswalks at intersections, pedestrians have the right-of-way.
- **Use hand signals before making turns or changing lanes.**
  - Look behind you, over your left shoulder, and then extend your left arm out to signal a left turn.
  - Hold your left arm up with your elbow bent to signal a right turn.
  - To signal to slow or stop, extend your left arm down. To signal that you are slowing or stopping, extend your left arm down.

## For Drivers

- **Look carefully** for bicyclists and pedestrians before making a turn or opening a car door near streets or bike paths.
- **Be patient when traveling behind a bicyclist.** Maintain at minimum three feet of space when passing or overtaking a bicyclist.
- **Slow down and follow the speed limit.** Be careful traveling through intersections.

- **Never drive distracted or impaired.**
