HISTORIC CONTEXT STATEMENT

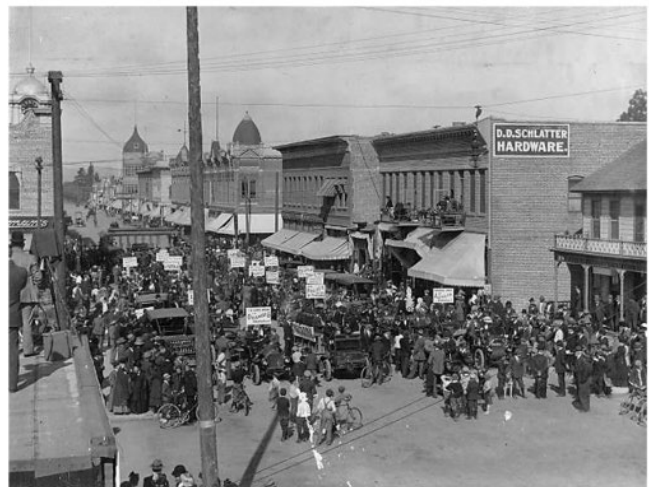

The City of Pomona's historic preservation program endeavors to tell all of Pomona's stories and to protect those places that represent our stories. In order to understand our history and our historical places, we have recently completed our first Citywide Historic Context Statement. The Statement tells the story of how Pomona developed from the earliest adobes to the recent past. While not intended to provide every detail of Pomona's history, it provides a general history development that identifies important aspects of Pomona's past.

The historical context also provides a foundation to identify properties that may be significant in Pomona's history and to focus our resources to identify and protect those areas where the resources exist. We invite everyone to read about Pomona's storied past at

CITY STABLES

Five years ago, the City Stables building experienced a catastrophic failure when a portion of the walls and roof collapsed. City Council directed Staff to include reconstructing the stables as part of the new Water Resources Department building.

This week that reconstruction process began. The first step was the demolition of the existing stables building. Planning and Water Resources department staff were on-site to ensure decorative elements were saved (to be reinstalled on the reconstructed building), and that great care was taken during the demolition process. The next step will be to test the building components for hazards such as asbestos and salvaging as much of the building as possible for use in the new building which is anticipated to be completed by the end 2023.

POLICE

OCTOBER IS NATIONAL PEDESTRIAN SAFETY MONTH

October is National Pedestrian Safety Month and the Police Department would like to raise awareness about the safety of people walking, emphasizing “safe drivers, safe speeds and safe vehicles save lives.” The safety of pedestrians is a significant traffic safety concern. At least two pedestrians or bicyclists are killed on California roads every day. Between 2010 and 2019 in California, pedestrian deaths increased more than 40 percent and bicyclist deaths went up more than 60 percent. In 2020, 6,516 pedestrians were killed in the United States – an average of 18 pedestrians a day and one pedestrian killed every 81 minutes. Speeding, poor lighting, mid-block crossing and impairment are the main factors in pedestrians being struck by vehicles.

Pomona Police Department offers the following safe driving and walking tips:

Drivers

- Do not speed, slow down at intersections. Be prepared to stop for pedestrians at marked and unmarked crosswalks.
- Avoid blocking crosswalks while waiting to make a right-hand turn.
- Never drive under the influence of alcohol and/or drugs.

Pedestrians

- Use signalized crosswalks where drivers expect foot traffic.
- Watch for approaching vehicles and be careful crossing the street, especially busier streets with higher speed limits. At 30 mph, a driver needs at least 90 feet to come to a stop.
- Get in the habit of wearing light colors, reflective material, and using a flashlight at night so you are visible to drivers.
