INFORMATION TECHNOLOGY

COMMUNITY CENTER INTERNET UPDATE

This week, Garfield Community Center had its internet upgraded from DSL to FIOS! This exciting upgrade enables IT to implement free Wi-Fi to community members after new network equipment is procured and installed. The purchasing of these equipment is already in motion for several community centers. La Casita has also been identified as being eligible for FIOS upgrade and is next on the list. Additionally, IT worked alongside Neighborhood Services Department and visited Ganesha, Jaycee, and Willie White Community Centers to test the quality of commercial-grade cellular broadband; this is

necessary as these facilities do not have access to cost-effective hardwired internet. The results were promising with each site averaging 100Mbps+ download but varying upload between 5Mbps and 20Mbps. IT will next work with Facilities to assess optimal install locations for these modems.

STREAMLINING OPERATIONS

Having recently updated IT’s directory service and reporting hierarchy, the team is now leveraging this data to streamline cybersecurity training. Formerly, upon new hire or departure of Staff, accounts are manually created on or removed from the City of Pomona’s cybersecurity training system. Once fully deployed, accounts will automatically be created for new Staff and systematically enrolled in cybersecurity training; conversely, accounts are automatically removed from the system for departing staff. Further, reminder emails on outstanding cybersecurity training can automatically include supervisors to streamline communications. Stay tuned for more updates on how IT is modernizing business practices!

LIBRARY
