## **PDIT UPDATES**

In prior weeks, IT successfully deployed 60 Mobile Data Terminals (MDTs) to replace aging units in patrol vehicles and repurposed 10 of those units for Field Training Officers (FTOs). Once again working closely with PD, PDIT repurposed another 8 rugged laptops for report writers in Community Service Officers Program. Repurposing older but usable hardware allows the City of Pomona to extend the life of equipment and be more fiscally responsible. Additionally, PDIT successfully upgraded several PD applications relating to supervisory, accountability, and incident tracking. These application upgrades introduce new features and strengthen the City's overall cybersecurity posture.

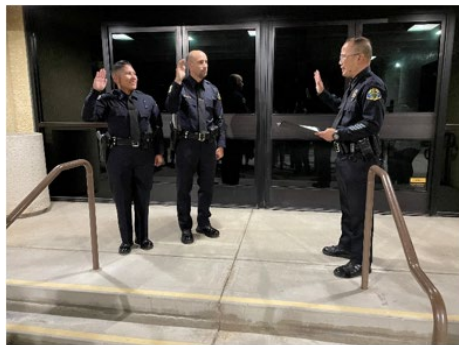

## **BROADBAND STUDY**

The San Gabriel Valley Council of Governments (SGVCOG) is conducting an internet availability study to understand where affordable and reliable internet may be lacking in the region. We encourage all Pomona residents to contribute to the study by filling out the survey at <https://www.sgvkog.org/broadband>. The City of Pomona IT is continuing to collaborate with SGVCOG to assess internet needs in the region as mutual support is expected as recipients of CPUC's Local Agency Technical Assistant (LATA) grant. The IT Team is drafting an RFP (Request for Proposal) for local broadband studies on accessibility, availability, and affordability challenges. Further, feasibility study and costs assessment will be included on overcoming or lessening those challenges.
