### Capital Improvement Program Project Details

Project Title: **Casillas Bike Park**

**Project Description:** This project will provide for a Bike Park at a location in the City yet to be determined, that will be named in honor of Police Officer Gregory Casillas who was killed in the line of duty on March 9, 2018.

The proposed bike park will be another element added to a park that will provide for an activity that enhances physical and mental health and will be the only bike park in the City of Pomona as well as the only one regionally. Guidance from the Department of the Treasury allows ARPA funds to be used on park improvements within a QCT, and for park improvements outside of a QCT, provided the improvements will serve a population that was disproportionately impacted by the pandemic. Treasury Guidance further recognizes that investments in parks, public plazas, and other public outdoor recreation spaces are responsive to the needs of disproportionately impacted communities by promoting healthier living environments and outdoor recreation and socialization to mitigate the spread of Covid-19.

## Capital Improvement Program Project Details

Project Title: **City Hall Complex Remodel and Flooring**

**Project Description:** Remodel of first floor lobby areas involving Revenue Management, Planning, Code, Building, PW and Utility Billing. Remodeling involves physically moving staff to better utilize first floor lobby space, new carpet for Revenue Management, Planning, Code, Building, PW and Utility Billing areas and reconfiguration of current first floor work space. Flooring for City Hall, Council Chambers, Print and Mailing Services Division space, as well as the reconfiguration of walls, cubicles, and furniture in the Print and Mailing space is also included in this project. Redesign and remodel of the former City Attorney office space to add four (4) workstations, two (2) offices, a large Community Conference Room, and all miscellaneous equipment.  
 (Project title changed FY 21-22)

### Capital Improvement Program Project Details

Project Title: **Community Garden**

**Project Description:** This project will create a community-based environment to showcase rainwater capture techniques through rain gardens, ensure compliance with stormwater regulations, and prioritize the integration of components from the Safe Clean Water (SCW) Program. This project promotes environmental stewardship and awareness about stormwater capture, green infrastructure and the significance of stormwater regulations. It enhances public health by mitigating pollutants and offers interactive educational experiences and recreational opportunities. The project aligns with sustainable water management practices, prioritizes green job creation, and fosters community well-being.

### Capital Improvement Program Project Details

Project Title: **Council Chamber Production Facility and Equipment Upgrades**

**Project Description:** This project will enhance onsite and remote public experience, production quality, and security and language accessibility within the Council Chamber, while also preparing the facility for local emergency declarations with proper staging configurations to facilitate ease of media coverage.

The project includes miscellaneous facility, IT infrastructure, and A/V improvements, including installation of new appliances for dual language audio and captioning support, upgrading dais hardware, relocating podium and staff tables, upgrade/reconfiguration of audience seating, carpeting, and improving overall electrical, lighting, and audio/video utilities for optimal program broadcasting in production facility and studio.

Project Title: **Country Crossing Park Playground Resurfacing and Play Equipment**

**Project Description:** Replace the original playground surfacing. The rubberized surfacing is damaged beyond repair. This park has the original playground structure and surfacing, which has exceeded life expectancy. Staff recommends replacement of both the play equipment and surfacing, which will require additional funding. Guidance from the Department of the Treasury allows ARPA funds to be used on park improvements within a QCT, and for park improvements outside of a QCT, provided the improvements will serve a population that was disproportionately impacted by the pandemic. Treasury Guidance further recognizes that investments in parks, public plazas, and other public outdoor recreation spaces are responsive to the needs of disproportionately impacted communities by promoting healthier living environments and outdoor recreation and socialization to mitigate the spread of COVID-19. This park area is adjacent to a QCT, but will be open to the public. The replacement of playground equipment will enhance safety of equipment and alleviate public health issues through exercise, thus qualifying this project for the

Project Title: **Hydration Stations Upgrades**

**Project Description:** This project will provide for the installation and replacement of drinking fountains at various parks. This annual program's purpose is to install missing drinking fountains and replace existing drinking fountains which are non-functioning or which are not meeting requirements of the Americans with Disabilities Act (ADA). The improvements will include, but not be limited to, replacement or installation of new drinking fountain units with bottle filler option, site preparation, grading, concrete repair/construction, connection of potable water supply, installation of cleanout drain and sump. Priority locations are determined by ADA priority need and assessment.

Project Title: **Library Facility Remodel**

**Project Description:** The proposed project will remodel a portion of the Library basement that is currently vacant and was last occupied by the Police Department. The improvements will reconfigure the space to accommodate approximately 10 Community Service staff members who oversee and administratively support youth programming. The remodel will be an open concept design with one private office and a small conference room. The project will include: environmental testing, demolition, construction, carpet, paint, and associated office furniture, etc.

This project will also include various other tenant improvements, demolition, construction, and furniture enhancements throughout the Library and Children's Room.

Project Title: **Park Light Poles**

**Project Description:** The proposed light pole replacements are for seven (7) light poles at Hamilton, Kellogg, Powers and Tony Cerda Parks. Additional six (6) poles are being assessed by staff as potentially hazardous and also in need of replacement. Light poles will be installed at Ganesha Park.

### Capital Improvement Program Project Details

Project Title: ***Park Restroom Construction and Replacement***

**Project Description:** The Park Restroom Construction and Replacement Project will provide construction of new and replacement of existing park restrooms throughout the parks in the City. Nearly all of the parks within the City of Pomona are located within a Qualified Census Tract (QCT). A few of the parks outside of the QCTs, such as Westmont, Ganesha Park, and the parks in Phillips Ranch, attract people from all over the City and are open and available to all. Additionally, Ganesha Park has a large pool as well as a large community center and hiking trails which draw people from all over to participate in activities that enhance physical and mental health. Guidance from the Department of the Treasury allows ARPA funds to be used on park improvements within a QCT, and for park improvements outside of a QCT, provided the improvements will serve a population that was disproportionately impacted by the pandemic. Treasury Guidance further recognizes that investments in parks, public plazas, and other public outdoor recreation spaces are responsive to the needs of disproportionately impacted communities by promoting healthier living environments and outdoor recreation and socialization to mitigate the spread of COVID-19.

Project Title: **Parks and Facilities Master Plan**

**Project Description:** This project will ultimately provide for the creation of a Parks & Facilities Master plan with an extensive community engagement process. The Master Plan will help guide the future maintenance, development and operation of the City for at least the next 10 years. It will highlight opportunities for enhancing the City's exemplary public parks, park facilities and recreation programs to respond to evolving resident needs and expectation.

Project Title: **Police - Range Sound Mitigation**

**Project Description:** This project consists of the design and construction of a modular firearms training facility with range cover on the existing 50 yard range, an additional acoustic range cover for the 25 yard range, and an extension of the acoustic barrier wall at the top of the slope at the 100 yard range. This project is designed to mitigate ballistic noise and provide a more environmentally safe range facility overall.

### Capital Improvement Program Project Details

Project Title: **Pomona Police Station/Fire Station 181 Energy Efficiency Upgrades**

**Project Description:** This project consists of energy efficiency upgrades throughout the basement and 1st Floor of the Pomona Police Department. The Second Floor of the Police Station has already undergone LED retrofit and is not included in this project. Since the police and fire stations are on the same SCE meter, Fire Station 181 will have 3 floors upgraded. Both of these facilities are operated 24 hours per day, year -round. The upgrades include Interior and exterior LED lighting and Control Upgrades, Optimizing VFD for AHU Supply Fans, VFD retrofit for CHW Pump, Program Supply Air Temperature Reset, and replace water cooled chiller with a new high efficiency chiller. The lighting was installed in 2007, and the HVAC and Mechanical is from 2002, so it is in need of upgrades. Completion of these upgrades will save 354,656 kWh, and estimated payback is approximately 7 years with an annual cost savings of \$84,784. The City has secured the SoCalREN Revolving Savings Fund (RSF) loan in the amount of \$568,500 with zero percent interest and paid over five years using the General Fund. The loan is to assist the City with the upfront construction costs to enable the projects to move forward, and is paired with other financing options such as On Bill Financing with Southern California Edison.

### Capital Improvement Program Project Details

Project Title: **Washington Park Community Center Rehabilitation**

**Project Description:** Rehabilitation of the entryway trellis and other existing amenities within the Washington Park Community Center to be determined based on available funding.  
 Guidance from the Department of the Treasury allows ARPA funds to be used on park improvements within a QCT, and for park improvements outside of a QCT, provided the improvements will serve a population that was disproportionately impacted by the pandemic. Treasury Guidance further recognizes that investments in parks, public plazas, and other public outdoor recreation spaces are responsive to the needs of disproportionately impacted communities by promoting healthier living environments and outdoor recreation and socialization to mitigate the spread of COVID-19.  
 This park is located in a QCT. The rehabilitation of the Community Center will allow for enhancement of programs that benefit disadvantaged youth and seniors in this neighborhood and throughout the City of Pomona, as Washington Park has one of the largest community centers in the City, thus qualifying this Project for the use of American Rescue Plan (ARP) Funds.

Project Title: **Water Resources Building**

**Project Description:** The Water Resources Department Administration and Operations Facility Project encompasses the relocation and new construction of the Water Resources Department Field Operations sites located at 148 N. Huntington Street using the Design/Build Project Delivery Method. Expenditures prior to 2011 were related to the construction of the Direct Transfer Facility and expenses related to the environmental contamination at the current site (738-768 W. Commercial St.). The project site improvements are expected to start in 2021 and will incorporate the Historic Pomona Stables (CIP Project 428-2590- XXXX-71054 - City Stable Facility). The reconstructed stable building replaces the training room as originally designed. An associated greenspace improvement is associated with this project to facilitate public water resources education.

Project Title: **Civic Center Plaza - New Playground and Amenities**

**Project Description:** This project consists of the restoration of the Civic Center Plaza, rehabilitation of the existing public fountain to an operational status, and incorporation of features that enhance Civic Center campus and architecture. New proposed amenities include an all-abilities playground, a concrete pad for a stage, and restrooms. This park is centrally located, within the qualified census tract (QCT), adjacent to the library, City Hall, and Courthouse and is located in a disadvantaged community. Adding the amenities will contribute to equity, making this location a City focal point, contributing to greater activity among families and improvements in health and improve the quality of life, while also linking them to the library and government services. The project will include an assessment of the existing conditions, preliminary design report including investigations and renderings, preparation of contract documents (plans and specifications), preparation of cost estimates, design/construction schedules, and bid assistance. Playground activity has increased during the Pandemic, and children and adults alike are encouraged to increase their outdoor activity and health regimen to keep good mental and physical awareness.

The CDBG and ARP-funded portion of this project will design and construct a new playground with amenities serving all abilities, while maximizing quality of life, environmental impact, and public health in the heart of the City. Since the park is located in a QCT, US Treasury has prioritized supporting underserved communities that have been disproportionately impacted by the Pandemic. The SLFRF program, as implemented by the final rule, provides even greater flexibility to recipients for uses of funds in underserved communities, recognizing that pre-existing health and economic disparities in these communities amplified the impact of the pandemic. In general, investments in improving health outcomes and economic opportunities provide high economic returns. Additionally, the final rule clarified that investments in parks and other public outdoor recreation spaces are enumerated eligible uses for disproportionately impacted communities.

Project Title: **Downtown Parking Structures**

**Project Description: Part 1:** Development of Downtown West Parking Structure. Development of an up to 1,000 - stall parking structure in conjunction with future development of the Downtown area. The proposed location is at the southeast corner of Main Street and First Street. The estimated cost of the structure is \$16.6 million, which includes the acquisition of a portion of First Street. The development of the structure is contingent upon availability of funding from other sources. CIP funds will be utilized for professional consulting services as well as for structure design and build costs. Associated work will involve the realignment of an existing sewer main line and dry utility coordination.

Project Title: **Martin Luther King, Jr. Park - Skate Park Expansion/Lights**

**Project Description:** Expand the existing skate park to include additional ramps, rails and other skateboard amenities. This includes removal of existing restroom structure to provide additional area for expansion. Guidance from the Department of the Treasury allows ARPA funds to be used on park improvements within a QCT, and for park improvements outside of a QCT, provided the improvements will serve a population that was disproportionately impacted by the pandemic. Treasury Guidance further recognizes that investments in parks, public plazas, and other public outdoor recreation spaces are responsive to the needs of disproportionately impacted communities by promoting healthier living environments and outdoor recreation and socialization to mitigate the spread of COVID-19.

This park is located adjacent to a QCT. The replacement of playground equipment will enhance safety of equipment, allow children with disabilities to play and alleviate public health issues through exercise, thus qualifying this project for the use of American Rescue Plan (ARP) Funds.

## Capital Improvement Program Project Details

Project Title: **Measure A Park Improvements - Citywide**

**Project Description:** This project will allow for eligible Measure A-funded improvements at various parks Citywide. Improvements may include, but are not limited to, replacement, renovation, or addition of bathrooms, replacement of playground equipment and surfacing, lighting improvements, refurbishment or updating of park amenities, etc. The City receives annual Measure A allocations through the County Regional Park and Open Space Program (RPOSD). These allocations can be banked initially for up to 5 years, though that can be extended via communication with RPOSD. To date, the City has received a total of \$1,689,240 available to use. The impact on future operating costs is minimal as Measure A provides a separate source of funding reserved for maintaining and servicing projects or amenities funded through Measure A.

On December 16, 2019, the City Council approved an initial Priority List of projects to be funded through Measure A annual allocations.

CITY OF POMONA  
Capital Improvement Program Project Details

Project Title: **Park Improvements – Sport Court Resurfacing and Restriping Citywide**

**Project Description:** This project aims to enhance the recreation experience for communities by rejuvenating and repaving sports courts in public parks. This initiative targets basketball courts, tennis courts, and other multi-use sports courts that have experienced wear and tear over time. By investing in repaving these essential recreational spaces, the project seeks to promote active lifestyles, foster community engagement and provide safe and accessible facilities for people of all ages and skill levels to enjoy.

The City's Youth Commitment fund will fully cover the estimated costs for Phase 1 of resurfacing and restriping to blend four (4) existing tennis courts with 16 pickleball courts for \$125,000 at Palomares Park. This would include surface patching and paint color-coding of pickleball court lines overlaid with tennis court lines and dimensions.

### Capital Improvement Program Project Details

Project Title: **Pomona Library Facility Improvements**

**Project Description:** The proposed Pomona Library facility improvements consist of: redesign of the entrance, exit and circulation area (construction and installation), flooring replacement, painting, and other facility improvements, as funds allow. The Pomona Public Library Foundation (PPLF) applied for and received a California State Library Construction Grant for library improvements. In 2020, the City issued an RFP for the design and construction contracts with additive alternatives, to be completed if funding is available. In addition to these construction activities, eligible expenditures from the State Grant Funds include other general Library improvements such as technology upgrades, patron/staff furniture and other public facing improvements that benefit the patron experience, subject to approval by the PPLF. All funding for this project is to be donated from the Pomona Public Library Foundation (PPLF) to the City of Pomona. As the fiscal agent for the grant, the PPLF will be responsible for documenting all eligible expenses for administration of the State Grant. In FY 2022-23, the City received funding from the California Budget Act of 2021 (SB129) to fund the following improvements: roof replacement, HVAC replacement, carpet replacement, interior LED troffer retrofit kits, and LED exterior lighting.
