## ***INFORMATION TECHNOLOGY***

### **APPLICATION UPGRADES**

The IT Department performed various application upgrades in the past few weeks. Notable upgrades include deploying the latest endpoint protection to strengthen the City’s cybersecurity posture, collaborating with Water Resources Department to upgrade meter-reading application to support modern mobile devices, and partnering with Community Services to update the [Recreation Website](#). Periodic application updates and maintenance is a critical part of IT’s responsibility to ensure all of our systems remain in support with our vendors and for other benefits including feature enhancements, bug fixes, and cybersecurity improvements.

### **LOOKING AHEAD**

New and exciting initiatives are underway in IT! Continuing with IT’s goal to modernize business practices, the City is migrating its collaboration software suite into cloud applications that will drastically improve how staff can share and edit documents with each other and with external partners. Additionally, IT is in the midst of assessing the City’s Enterprise Resource Planning (ERP) system to determine whether a more modern system will benefit the City, e.g. reduce manual efforts, improve efficiency, empower staff with more features and accessible real-time reporting. An ERP system is a specialized application system that organizations rely upon to manage day-to-day activities such as budgeting, procurement, payroll, human resource management, amongst many others.

## **WATER RESOURCES**

### **EXPANDING OUR FLEET**

The City of Pomona's Wastewater Operation Division recently welcomed a valuable truck, the 2024 Vactor 2100i Combination Unit.

The addition of this new unit will ensure that the Wastewater Division is well equipped to maintain the 320 miles of the City's gravity sewer main located within the wastewater system. This unit will clean sewer mains, vacuum, hydro excavate, pothole while assisting other divisions, and provide emergency assistance as needed during wet weather events and respond to any emergency as needed.

Year to date, the Wastewater Division has achieved a feat with zero mainline sewer spills. This accomplishment reflects the commitment of the Water Resources Department's Wastewater Division.
